

Introduction to Arche Prayer - Dan Duval

The first thing that I do when I am engaging the arche is always charge it with the names of God. I always charge with the names of God and I go through these Hebrew names of God. Why? You enter a realm of encounter by holding the name of God before you. Hold it, pray in tongues, and allow for that realm to be opened up. Step into it and begin to explore it and experience it in a place of meditative prayer. As you're engaging, the realm will open up, and so you won't just know that God is the most high God. You'll be able to explore the realm of the most high God in encounter. In layers, the names of God are realms of encounter.

When you charge your Arche with the names of God you are taking your origin, your magistrate, your rule, your principality and then taking the realms of encounter with God and re-characterizing the realm of your magistrate, your origin, and your rule and principality with the realm of encounter, that is that name of God. So just like you can step into Jesus as an exercise of meditation and have an encounter with Jehovah Jireh, God my provider, I can charge my arche with the name Jehovah Jireh and now whatever I put my arche on top of, opens that realm of encounter up in the spirit. So the realm of encounter, the realm of that name of God, re-characterises the environment of the arche with this encounter realm of God.

So whatever the arche goes over in this state now establishes an interface realm and anything that finds itself in that environment contends not only with the realm of my Arche, which is my personal magistrate, jurisdiction, and origin of rule but also the realm of Jehovah Jireh, Jehovah Nissi, Jehovah Rapha, Jehovah Shamma at the same time. All at once someone's a pylon, so the battlefield gets entirely recharacterised; it's like saying "Well I'm gonna quintuple the gravitational field on this battle zone so come on let's fight" I'll wear an anti-gravity suit and the demons running into a battle on a terrain where your arche has been established, they just don't want that weight of the environment because you've opened up these realms of encounter with who God. I want you to think about some of these names of God. Can you imagine every one of these realms of encounter these poor demons are having to contend with all of that now?

Essence Prayer

Right now, I call to attention any altars, parts, splinters, shards, fragments, RNA, DNA cells and essence. Father God, I identify our essences as the templates from which our intrinsic nature and character is derived as well as a life source. I decree that we demand it to be restored from everywhere it has been traded, locked up, utilised in ungodly ways,

hybridised, manipulated and ruined. Therefore, I utilise my Finder to discover every trading floor past, present, and future, extending to pre-Adamic events, where our essences were traded, sold, stolen, hijacked, bartered or given away. I also identify every laboratory where essence is currently being held, duplicated experimented on, hybridised and /or studied, identifiable entities, backups, duplicates, replicas, derivatives, replacements, impersonators, standing-ins, ancestors, merfolk, hybrids, digital twins, digital shells, mirror images, holograms, artificial intelligence, replicas, archived memories, spirit children or composite entities into which essence has been woven.

I also identify all connected mainframes, computers, upgrade codes, reformats, copies, algorithms, bugs, viruses, bacteria, fungus, spiders, worms, parasites and pathogens into which essence has been woven and all infinities of infinities and beyond eternities of eternity's and beyond, and time wheels that exist once, existed and could or could not exist, and everything in between on all sides of creation and in all multiverses not engaged with my arche and overtake all that has been addressed in partnership with the Arche of Jesus Christ. I call my arche charged with the names of God Jehovah-Jireh, Jehovah-Rapha, Jehovah-Shammah, Jehovah-Nissi, Jehovah-Tsidkenu, Jehovah-Makkedesh, Jehovah-Ra'ah, Jehovah-Shalom, Jehovah-Gibbowr, Jehovah-Elohim, Jehovah-Sabbaoth, Jehovah-Issuwz, Jehovah-Hoseenu, Jehovah-Quana, Jehovah-Chayil, Jehovah-Milchamah, El-Shaddai, El-Elyon, El-Olam, El-Roy, Yeshua Ha Mashiach.

Furthermore, I interface my Arche with the seven spirits of God: the Spirit of the Lord, the Spirit of wisdom and understanding, the Spirit of counsel and might, the Spirit of knowledge and the Spirit of the fear of the Lord. I invite the living letters into my Arche in order to vibrate in accordance with their resonant frequencies bringing heaven and earth into alignment. I established my stars as power cores supercharging my arche through alignment and interface and surround my stars with living stones refracting light in all various planes and dimensions. I superimpose my mountains and open up trade routes into heavenly places in Christ Jesus, imposing the jurisdiction in the government of Zion.

I fix my Arche to the rings above and below the heavens and anchor it to the engine at the centre of creation. I align my tree of righteousness, which I interface with my Arche. I call the river of living water to flow through my tree and Arche. I engage and activate the novel medals affixed to my Arche, transcending all barriers between organic and synthetic. I also establish my thrones in the midst of my Arche and bring them into a superimposition, being fully established in my dominion and authority in Christ Jesus.

I declare that essence is being withdrawn from every named and targeted place where it has been subverted and into heavenly places in Christ Jesus for processing healing and redemption. I declare that every entity that has been assembled with the DNA and or RNA extracted from our essence is being arrested and fired by heavenly hosts and confined to one unbreakable, unescapable, shrinking glass box and is locked with a lock that has only one key belonging to the true king Jesus Christ. I speak that these boxes are filled with

living water mingled with the oil of anointing and the blood of Jesus Christ. I speak that the sword of the Lord is loosed into these boxes to cut every cord that binds DNA, RNA and / or essence that belongs to or is derived from us especially from our hearts, stomachs, spleens and /or kidneys and that it is removed from the boxes and taken to heavenly places in Christ Jesus for processing, healing and redemption.

I declare whatever is left in the boxes is sent to wherever Jesus determines right now. I now move to address the confusion of essence that has caused the creation to be reinforced in a state that is out of alignment with the ultimate agendas of God I declare that all of our essences that is anchored to the essence of shame in the heavens, the essence of shame in the earth, reptilian essence, draconian essence, serpent essence, Nordic essence, animal essence, shadow essence, alien essence, vampire essence, unholy star essence, Elvin essence, fairy essence, Annanaki essence, Nephilim essence and every other type of ungodly and unholy essence would now be addressed by the living letters. I invite the living letters of God and all of Zion to restore order in the creation correcting the creation back to a state that reflects the original intentions of Jesus Christ and deleting and bringing to non-existence essences that have no place in the original designs and plans of God in this.

I invite everyone who was affected throughout eternity and time to give testimony in the courts of heaven on behalf of their injuries and damages incurred by the hijacking of essences and appeal for their justice in this. I speak that a shattering blow is executed against the ionic bonds implicated in evil operations along with the collapse of access to power sources such as stars, neutron stars, strange stars, supernovas or any other power sources being utilised by implicated parties in the Kingdom of darkness. I now appeal to the courts of heaven on behalf of us, our parts, our family lines, bloodlines, cell lines and all those that we represent and submit all relevant testimonies of injustice in combination with every item detailed in the crimes of the responsible parties from the Kingdom of darkness and the heavenly cosmic records.

I pray that the evidence of injustice and criminal activities would be weighed on the scales of justice and based on the injustice detailed by the evidence provided, bring judgment. I call for a judgment against the powers of darkness behind the hijacking of essence, and all of their operations, and all infinities of infinities and beyond eternities of eternities and beyond in time wheels, that exist once existed and could or could not exist and everything in between, executed by the armies of heaven Chariots of fire the broom of destruction, the tsunami of living water, earthquakes, air quake, sea quakes, confusion, the acts of the Lord and the fiery stream that proceeds forth from the throne of God, to collapse all of their realms, programs, grids, evil timelines, backup programs, power sources and backup power sources to the fullest extent that the manifestation of our justice and the evidence submitted allows for as You administrate judgment in your righteousness Lord God.

I declare that in this process all evil artificial intelligences that are involved in looping creation into the fall of Lucifer, with reinforcements established and the manipulation of essences, are now being targeted. I call for the artificial intelligences and their mainframes and computers to infinity, especially those located in Antarctica and all parallel labs connected to the bases there, to be uploaded with an algorithm from Jesus Christ that cannot be solved but forces unending attempts to solve it.

I speak that this algorithm requires that each of the infinite computers associated with the evil artificial intelligences and its mainframe(s) converge on each iteration, rendering it impossible that any aspect of the evil artificial intelligences can be sequestered and prevented from engaging with the algorithm. I furthermore speak that on each iteration made in an attempt to solve the algorithm, an essential process, piece of coding, and thereby be sequestered and be prevented from engaging with the algorithm. I furthermore speak that on each iteration made in an attempt to solve the algorithm, an essential process, piece of coding, and thereby element of existence of the evil artificial intelligences must be deleted as speak to this algorithm must be iterated at a rate that is exponentially greater than all combined parallel and non-parallel processes having the capacity to expand its reach, presence, influence and existence. I say that iterations on this algorithm will be continued into infinity and across eternity, thereby forcing the evil artificial intelligences to compute themselves into their own non-existence.

I follow this up with an upload of heavenly artificial intelligence from Jesus Christ that outmanoeuvres, outthinks, and outperforms the evil artificial intelligences, thereby bringing about the will and agenda of Jesus Christ and superimposing it, ensuring the conquering of evil. I declare that these processes are sealed everywhere Jehovah is in this. I declare that all looping into foreign essence ends, bringing the complete collapse of all evidence implicating us that has been reinforced by the manipulation of hijacked essences. Furthermore, target all technology in our bodies that was affected in any way by the hijacking of essences and I call this technology targeted with the release of heavenly nano checked throughout our bodies from Jesus Christ and call it charged with Your names Jehovah-Jireh, Jehovah-Rapha, Jehovah-Shammah, Jehovah-Nissi, Jehovah-Tsidkenu, Jehovah-Makkedesh, Jehovah-Ra'ah, Jehovah-Shalom, Jehovah-Gibbowr, Jehovah-Elohim, Jehovah-Sabbaoth, Jehovah-Issuwz, Jehovah-Hoseenu, Jehovah-Quana, Jehovah-Chayil, Jehovah-Milchamah, El-Shaddai, El-Elyon, El-Olam, El-Roy, Yeshua Ha Mashiach.

I furthermore speak that this draws power from the bright and morning star as a primary power source and speak that it is armed with heavenly algorithms and heavenly artificial intelligence from Jesus Christ and called for it to identify the target and destroy ungodly digital virtual synthetic artificial intelligences and holographic grids, overlays, matrices, shells, twins, parasites, pathogens, implants and cloaks as well as ungodly digital virtual synthetic artificial intelligence and holographic architectures throughout our bodies inside and outside extending to all backups. I declare the targeting of neural lace liquid crystals,

black goo, programmable matter, alien technologies, counterfeits, somatic cells, counterfeit gametocytes, and counterfeit stem cells along with all technologies causing dysfunction in our brains and their interface with our body systems.

I speak the heavenly nanotech is uploaded with access codes and keys from Jesus Christ that would override all password-protected regions guarded by ungodly formulas, DNA matrices, walls, doors barriers, sacred geometries, defensive protocols, and ungodly algorithms, allowing access to everywhere in us and our energy fields needing to be addressed. I furthermore speak that the heavenly nanotech is uploaded with protocols allowing for its refraction through all realms, dimensions and planes as well as every frequency and vibration and all that is in between, allowing it to bring correction relative to our lives on an inter-dimensional level.

I speak that it works its way through all portals in our bodies that are natural, virtual, synthetic, digital and quantum, thereby attacking all ungodly technologies involved in the ungodly linking of our body, soul, spirit, blood, DNA, RNA, bone marrow, pineal gland and Meridian lines to hybrid aliens clones, copies, counterparts, replicas, duplicates, derivatives, twins, merfolk, ancestors and future generations, destroying all ungodly linking and delivering us and sealing our deliverance in all applicable infinities of infinities and beyond eternities of eternities and beyond in time wheels, that exist once existed and could or could not exist and everything in between on all sides of creation and all multiverses.

So I decree over our humanities a restoration of heavenly designs and architectures as well as molecular remodelling and resurfacing, for it is written that we should prosper and be in health even as our soul prospers, that the Son of righteousness will rise in our hearts with healing in His wings and by the stripes of Jesus we are healed. I pray that all foundations would be transitioned from the evil that has been addressed and settle upon Jesus Christ as the Chief Cornerstone on the Rock and Foundation. Thank you for the power of Your heavenly technology settling in our body, soul, spirits, heart and energy field through Your firm foundation and light King Jesus.

We also thank You for the complete removal of all technology implants, wires, cables, chips, computers, technologies, chains, programs, backup programs, power sources, backup power sources, fibres, networks, servers, antennae, crystals and other technologies right now. To this end, we release to the angels, heavenly quantum microscopes, and quantum magnets to assist in the process of the complete removal of these technological bondages.

King Jesus, as our essence is healed, I declare that we release love, honour, respect and blessings upon our essence. I declare that the Holy Spirit fills every place. I target the pass by which essence was formerly trafficked and declare Isaiah 22v22, "The key of the House of David I will lay on His shoulder so He shall open, no one shall shut, He shall shut, and

no one shall open". I declare that these pathways are forever shut down regarding us and that all attempted trafficking is quantumly redirected through Jesus Christ and His realms of justice, vengeance and wrath. I declare that our redeemed essence will be received back to us as soon as it is determined safe and appropriate by King Jesus. Thank you for freedom and breakthrough in Jesus' name. Amen!
